Select the discovered device from the list of available devices.

Once you see the check mark under saved devices press Test to confirm communications are working.

Make sure the device is in range and on and it will prompt you to swipe a card. This WILL NOT process a transaction it will simply confirm communications are working.

Close out the Set Up process by pressing save.

TA2 will open and you will see a Success message on proper saving of settings. You can now process Credit Card transactions.

Process Cred Card Transactions

Once you have a Walker BT device set up you can proceed on this message or you can check your settings under Set Up.

At the end of a trip when you are prompted with payment method choose Credit as your method of payment. NOTE if this option is grayed out, you might need to go back through the Set Up process or confirm that the Open Edge Mobile app is installed on your device.
